## Parking Permits for CFMI Member's Only!

### Material Features:

- This is no "wimpy" parking tag permit! The graphics are deeply embedded within the heavy duty, 35 mils thickness of these permits. Parking permits stay flat, even in the bake-oven conditions of a car. These permits cannot be picked apart. The high gloss finish can be wiped clean. Parking permit tag can be moved from car-to-car.

Designed to fit over a broad range of rear view mirrors. Compare this to permit hangtags from others that only really work on metal or thin mirror brackets. Our tags loop over easily, but stay in place. They are time-tested on a variety of mirrors, including those of the more recent plastic brackets favored by new car models (over the heavier, all metal brackets). Size = 5" x 3"

**Heavy Duty Plastic Parking Permit Tag \$8.50 each**

**There is a security hologram on Parking Permit**

### PERMIT 2

**Static Cling Decals for Inside of Window (white back)**

#### Material Features:

- Custom static cling parking decals are used on the inside of your window.
- Removable, without residue.
- Move from one window to another.
- Label clings onto glass or metal, without adhesive. Label sticks on either front or back.
- Crystal Clear or White.

**Static Cling Decals for Inside of Window Size = 2" x 2"**  
**\$2.50 each**
